## Colorado Fly Week

### *Ellenville is in the HOUSE!*

Just as in 2012 and 2014, Ellenville was represented by a large and enthusiastic contingent of pilots at the final Colorado Fly Week in 2016. Not only that, but competition trophies went to Timo Friedrich and Wayne Neckles, who both repeated their performances of 2012 by earning first and third place in

the single surface category. A great time was once again had by all - some who were returning for a second or third time, and others who were there there for their first CFW experience. All bring back to Ellenville cherished memories of our time with Tiffany and Larry and everyone we met in the skies above Villa Grove.
